

We excel at
crafting driveway,
patios, pool decks,
walkways, planter
walls, and fire pits.

Why Titan Pavers?

1 Experience

We are experienced at completing every type of pavement project including driveways, patios, pool decks, walkways, planter walls, and outdoor kitchens.

2 Customer Satisfaction

We are proud of honest and unbiased feedback our customers leave us on platforms like Yelp, Angie's List, and others.

3 We are Insured

Not all paving contractors carry their own insurance, and hiring a contractor that does not insure their work means that your homeowner's insurance will have to foot the bill if they cause any damage to your home or landscape during the construction process.

4 Material Selection

We partner with proven, high-quality suppliers in order to guarantee that your project is constructed using the best building materials available on the market.

We Offer Extensive Options to Choose From

At Titan Pavers, we are armed with the right tools, techniques, and knowledge to give the best results for every paver installation project. Our customers are our top priority, and we seek to exceed their expectations with top-notch quality, competitive pricing, and a highly streamlined process of installation. Our highly trained professionals and skilled designers work closely with you right from design conceptualization to installation and beyond.

We have extensively worked with wide-ranging paving materials and pavers manufacturers including Angelus, Belgard, Orco, and Olsen.

1 Angelus

pavers are available in pleasing natural and neutral shades to perfectly complement your home décor. With colors ranging from earthy browns, brick reds, neutral gray, charcoal gray, pastel pinks to darker shades and extensive patterns ranging from antique cobbles, symmetrical geometric shapes, keylock patterns, permeable Holland to natural estate cobble, Angeles pavers bring out the best in your outdoor space.

2 Belgard

Belgard offers a wide range of stylish and highly durable pavers that are ideal for giving a design and style makeover for your patio, driveway, garden or pool deck. From driveways to planter walls, fire pits to walkways, Belgard pavers can easily bring on an old-world charm or a sleek modern look.

3 Orco

Olsen pavers offer a unique and attractive alternative to asphalt or concrete. Durability, economy, and strength of Olsen pavers make them the ideal choice for courtyard, patio, driveway, walkway or poolside applications. We have successfully used Olsen pavers in high traffic areas such as driveways, as well as to enhance the beauty of the patio

4 Olsen

Orco pavers are perfect solutions for any kind of paving project. We at Titan Pavers have used the interlocking Orco pavers to instantly improve outdoor appearance while boosting appraised value. We offer design consultation for choosing the right ones from the wide selection of colors, textures, and shapes while following best practices in installation.

Enhance Your Curb Appeal and Boosts Up Your Property Value!

We Are Eco-Friendly

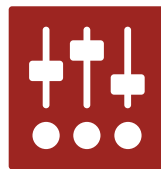

It's not only about the array of shapes, colors and patterns that allow driveways and patios to look distinctive and eye-catching, but how a one-time investment in interlocking concrete pavers installation assures a pavement that can last thirty years or more.

A compressive strength of 8,000 psi

Conserve water - A maximum absorption rate of 5%

Produced in a controlled environment

More resistant to de-icing chemicals

Perfect for freeze-thaw conditions

We Are Top Rated

Let's take a look at the steps you can follow in order to find the best paving contractor in Los Angeles to help with your next project.

Look for Relevant Experience

Not all paving contractors in Los Angeles are experienced. Let's take a look at the steps you can follow in order to find the best paving contractor in Los Angeles to help with your next project. Let's take a look at the steps you can follow in order to find the best paving contractor in Los Angeles to help with your next project. Needed at completing every type of pavement project, and it is important to ensure that you are working with a company that has a demonstrated history of delivering great results for the type of project you are looking to complete. Before you hire a company, make sure that they are experienced at completing the type of project you are wanting to hire them for.

Check Customer Reviews

If you are looking for honest and unbiased feedback about a contractor that you are considering hiring, there's no better place to look than the reviews of customers who have worked with them in the past. Thanks to platforms such as Yelp, Angie's List, and others, finding such reviews is now easier than ever before. These reviews are able to guide your hiring decision better than most anything else.

Make Sure the Price is Right

There are plenty of important factors that you'll need to keep in mind as you go about hiring a paving contractor for your next project, and your budget is certainly one of these factors. Before you hire a contractor you should receive several of these quotes in order to find the contractor that is willing to offer you the best deal. With that said, though, price probably shouldn't be the end all be all of your hiring decision. Factors such as experience and customer reviews are every bit as important if you want to ensure quality work that is completed in a reasonable time-frame.
